

NCI 2025 program (final)

Day 1, April 8th, 2025

9.30-10.00	Coffee and registration
10.00-11.30	Session 1: What is normal? <i>Chairs: Ellen Ostenfeld (SE), Björnär Grenne (NO)</i>
	Chamber size and function <i>Zahra Raisi-Estabragh, London, UK</i> GLS - how to think in the multimodal/multivendor world <i>Håvard Dalen, Trondheim, NO</i> Fibrosis or not? <i>Marcus Carlsson, SE</i> How can AI provide new insights into normality in cardiac imaging? <i>Andreas Østvik, NTNU, Trondheim, NO</i> Panel
11.40-12.00	Session 2: Sponsors: Future Perspectives <i>Chair: Ellen Ostenfeld (SE)</i>
	Bayer: Cardiac CT <i>David Hall, Cardiac Application Specialist hos Bayer UK</i> AOP Health: Efficacy of bolus injections of landiolol hydrochloride as premedication in coronary artery CT angiography <i>Dr. Barwig Mark, radiologist at the state hospital Graz 2, from Austria</i>
12.00-13.00	Lunch & exhibition
13.00-14.30	Session 3: Structural heart disease - clinical significance unclear? <i>Chairs: Riita Paakanen (FI), Frank Flachskampf (SE)</i>
	Non-compactation cardiomyopathy. Better now: Excessive LV trabeculation? <i>Zahra Raisi-Estabragh, London, UK</i> Mitral annular disjunction. When relevant if at all? <i>Uzma Chaudry, Lund, SE</i> Exercise-induced arrhythmogenic cardiomyopathy. What is it? <i>TBA</i> Odd morphologic findings. Normal or pathology? <i>Niels Vejlstrop, Copenhagen, DK</i> Panel
14.30-15.00	Coffee and moderated posters
15.00-16.40	Session 4: Best thesis of 2023 and 2024 <i>Chairs: Morten Böttcher (DK), Ellen Ostenfeld(SE)</i>
	Norway: Artificial intelligence to improve measurement reproducibility of left ventricular function in echocardiography <i>Ivar Mjåland Salte. Akershus universitetssykehus, Oslo.</i> Sweden: Evaluation of Coronary Artery Disease with Computed Tomography Stenosis Evaluation and Calcium Score <i>Lilian Henriksson, Linköping University.</i> Denmark: Coronary Magnetic Resonance Angiography for the detection of Coronary Artery Disease <i>Gregory John Wood, Denmark</i> Finland: TBA <i>Aino-Maija Vuorinen, Helsinki University.</i>
16.50-18.00	Session 5: Mitral regurgitation <i>Chairs: Anne-Sophie Sillesen (DK), Björnär Grenne(NO)</i>
	Atrial vs ventricular functional mitral regurgitation <i>Frank Flachskampf, Uppsala, SE</i> The contribution of functional mitral regurgitation to heart failure – vicious circle or evil twins? <i>Jan Otto Beitnes, Oslo, NO</i> When is it too early and when is it too late to intervene in functional mitral regurgitation? <i>Magnus Settergren, Stockholm, SE</i> Panel
19.00-	Dinner and awards

NCI 2025 program (preliminary)

Day 2, April 9th, 2025

08.30-10.00	Session 6: Right ventricular function – how informative are the current parameters? <i>Chairs: Bjørnar Grenne (NO)</i>
	New tools of RV function assessment: The rise of RV strain or sPAP/TAPSE? <i>Per Lindqvist, Umeå, SE</i> The importance of CMR for right heart assessment <i>Niels Vejlstrup, Rigshospitalet, DK</i> Imaging in pulmonary hypertension <i>Anton vonk Noordegraaf, Amsterdam, NL</i> Panel
10.00-10.15	Coffee
10.15-11.45	Session 7: Microvascular dysfunction - Why, what, how? <i>Chairs: Morten Böttcher (DK), Riita Paakanen (FI)</i>
	PET gold standard? <i>Juhani Knuuti, Turku, FI</i> CMR - new kid on the block? <i>Jannike Nickander, Stockholm, SE</i> Invasive measures needed? <i>Jonas Persson, Stockholm, SE</i> Panel
11.45-12.00	Closing remarks
