

Invitation to healthcare professionals attending:  
**Scandinavian Congress of Rheumatology 2025**  
with copy to healthcare operation manager.  
We welcome you to an AstraZeneca-organised and -funded  
symposium with breakfast provided.

# The mission for remission: what is now possible for SLE patients?

**Saturday 06 September 2025 | 8:15–9:00**  
**Malmö Live, Malmö, Sweden**

Join an international expert panel as they explore the importance of remission as the primary goal in SLE treatment. By reflecting on clinical trial and real-world data, and their own clinical experience, the panel will outline strategies for achieving early and sustained disease control in SLE.

**Ioannis Parodis**  
*Moderator*

**Chris Wincup**  
*Speaker*

**Anne Trolldborg**  
*Speaker*

---

## **8.15 – Welcome and introduction to treat-to-target in SLE: What do the clinical trials show us and what should our goals be now?**

*Ioannis Parodis, Stockholm, Sweden*

---

## **8.20 - Remission and control of disease activity in SLE: What can we learn from RWE?**

*Chris Wincup, London, United Kingdom*

---

## **8.40 - Remission and control of disease activity in SLE: Expert perspectives from the clinic**

*Anne Trolldborg, Aarhus, Denmark*

---

## **8.50 Panel discussion and Q&A**

*All faculty*

The symposium is part of the official program during Scandinavian Congress of Rheumatology.  
Registration is completed along with your registration for the congress.

Warm welcome!
