EBSA 2023

July 31 – August 4, 2023
Stockholm, Sweden

Welcome to EBSA 2023 Sponsorship & Exhibition opportunities

EBSA
Biophysics in Europe

SFBBM
Svenska föreningen för biokemi, biofysik och molekylärbiologi
Swedish society for biochemistry, biophysics and molecular biology

We are delighted to invite you to participate at the:

14th EBSA Congress
July 31 – August 4, 2023 in Stockholm, Sweden

An EBSA congress in Sweden is timely. In 1986, the first EBSA Workshop was held at Saltsjöbaden, Stockholm, hosted by the Swedish Biophysical Society and chaired by professor Anders Ehrenberg. In 2023, after a series of great EBSA meetings around Europe, the Swedish Society for Biochemistry, Biophysics and Molecular Biology is again proud to host the 14th EBSA congress to be held at Stockholm University.

In Biophysics, we investigate properties of time, force, and motion in biomolecular assemblies and processes – from single molecules to cells and tissues - and relate these to biological function. Biophysics has evolved dramatically since 1986, and many Nobel prices have been awarded to biophysicists to previous EBSA Plenary Lecturers in the past, and Nobel Prize winners will also participate in the upcoming congress. The EBSA-2023 will be held at the Aula Magna at Stockholm University, which is also known for hosting the Nobel Lectures in Physics and Chemistry.

EBSA-2023 will offer a creative meeting ground for investigating how the most novel experimental, theoretical and computational approaches in Biophysics can be synergistically tailored to improve our understanding of biological function, and thereby build an even stronger scientific bridge between physics, biology and medicine.

We are much looking forward to learning more about your most recent findings at EBSA-2023, and to jointly enjoy novel breakthroughs in this wide and exciting field. For EBSA 2023 we expect to attract 900 to 1100 delegates to join us in Stockholm to learn about the latest developments in the field of biophysics. It provides a perfect opportunity for you to promote new and innovative technologies, products and services.

Meet new contacts and strengthen key relationships

Maximising network opportunities for our delegate is an important priority. We work hard to provide places for formal and informal networking. Dedicated meeting spaces include an integrated exhibition hall where all refreshments will be served.

Exhibition Organiser and Congress Secretariat MKON AB is appointed the official Professional Congress Organiser for this Congress and will handle all the contacts regarding the exhibition and sponsorship. Please visit the website ebsa2023.org for further information, all registration and details about the exhibition and sponsor opportunities.

Most welcome!

Meeting Chairs:
Dr Maria Sunnerhagen, Professor of Structural Biology, Linköping University
Dr Erik Lindahl, Professor of Biophysics, Stockholm University and SciLifeLab
Dr Lena Mäler, Professor of Biochemistry, Stockholm University
Dr Jerker Widengren, Professor of Biomolecular Physics, KTH Royal Institute of Technology, Stockholm

Stockholm is the capital of Sweden

Stockholm is the capital of Sweden and the most populous city in the Nordic countries; 960,031 people live in the municipality, approx 1.5 million in the urban area and 2.3 million in the metropolitan area. Stockholm is the cultural, media, political and economic center of Sweden. The region alone account for over a third of the country´s GDP and is among the top 10 regions in Europe by GDP per capita. The city is home to some of Europe's top ranking universities, such as the Stockholm School of Economics, Karolinska Institute and Royal Institute of Technology (KTH). It hosts the annual Nobel Prize ceremonies and banquet at the Stockholm Concert & City Hall.
