

Perspectives in dengue prevention: From clinical development to real-world practice

Thursday 23 May 2024 | 17:30–18:15 CEST

Tivoli Congress Hall, Tivoli Hotel and Congress Center,
Copenhagen, Denmark

We are delighted to invite you to the Takeda-sponsored symposium at the NECTM9 2024 congress, titled **“Perspectives in dengue prevention: From clinical development to real-world practice”**. During this symposium, we will be discussing the Takeda clinical development program in Dengue vaccination. We will also explore the real-world, practical considerations and discuss first-hand experiences with Dengue vaccination in clinical practice.

Please join us to hear more and have your say during the audience Q&A session and panel discussion.
