

NNC2023

3rd Nordic Neurotrauma Conference
November 27- 29 2023, Lund, Sweden

Monday November 27th 2023

09.00-10.00	Registration
10.00-11.30	Poster session
11.30-12.00	Coffee, light lunch, posters & exhibition
12.00-12.15	Welcome
12.15-13.00	Introductory Lecture Knowledge gaps in TBI, <i>Niklas Marklund</i>
13.00-13.45	Epidemiology Trends of epidemiology of TBI in Europe, <i>Teemu Luoto</i> Trends of epidemiology of spinal trauma in Europe, <i>Bart Depreitere</i>
13.45-14.15	Coffee, posters & exhibition
14.15-15.35	Prehospital care and emergency medicine The role of a neurosurgeon in the field?, <i>Mark Wilson</i> Guidelines or tramlines - what's new in early management?, <i>Fiona Lecky</i> Mild TBI in children, <i>Fredrik Wickbom</i> Estimating intracranial hemorrhage risks in mild TBI, <i>Alexander Fletcher-Sandersjö</i>
15.35-15.45	Abstract presentation Risk Factors for Intracranial Hemorrhage in Mild Traumatic Brain Injury
15.45-16.05	Case discussion
16.05-16.30	Coffee break and poster session
16.30-17.30	Sports injuries An update on the management of sports concussions, <i>Grant Iverson</i> Sports and long-term neurodegeneration, <i>Willie Stewart</i>
19.00-23.00	Get together at AF-borgen

NNC2023

3rd Nordic Neurotrauma Conference
November 27- 29 2023, Lund, Sweden

Tuesday November 28th 2023

08.30-09.00	Poster session
09.00-10.00	Imaging The role of MRI in acute TBI, <i>Kent Göran Moen</i> Imaging of chronic TBI, <i>David Sharp</i> Imaging in pediatric TBI, <i>Inga Körte</i>
10.00-10.10	Abstract presentation Using Blood Biomarkers To Determine Intracranial Injury Seen on CT/MRI following mild Traumatic Brain Injury
10.10-10.30	Case discussion
10.30-11.00	Coffee, posters & exhibition
11.00-12.05	Neurosurgical Care Update on Acute Subdural Hematoma Management, <i>Jeroen van Dijk</i> Penetrating head injuries, <i>Elham Rostami</i> Chronic subdural hematomas, <i>Thorbjorn Ronn Jensen</i> Clinical coagulation in TBI, <i>Jakob Stensballe</i>
12.05-12.15	Abstract presentation Decompressive hinge craniotomy: The Copenhagen experience
12.15-12.30	Case discussion
12.30-13.15	Lunch, posters & exhibition
13.15-13.30	Some words from the Scandinavian Neurotrauma Committee president
13.30-15.00	Controversies in TBI & spine injury Prophylactic anti-epileptic drugs- to give or not?, <i>Anders Christian Feyling</i> The role for a cervical collar in spine fractures?, <i>Tor Brommeland</i> Timing and techniques in cranioplasty, <i>Jussi Posti</i> Age limits in craniotomy or neurointensive care?, <i>Alfonso Lagares</i> Embolization of chronic subdural hematomas, <i>Johan Waselius</i>
15.00-15.30	Coffee, posters & exhibition
15.30-16.30	Neurotrauma in war The role of the neurosurgeon in the warzone, <i>Jens Jakob Riis</i> Blast injuries, <i>Mårten Risling</i> Long term sequelae after war injuries, <i>Grant Iverson</i>
16.30-16.40	Abstract presentation Sharp increase in the number of sick leave cases in Sweden with the diagnoses Concussion and Postconcussion Syndrome
16.40-17.10	Sponsored symposium Evidence update for serum biomarkers in management of Mild TBI <i>Peter Biberthaler</i>
17.10-18.00	Poster session

NNC2023

3rd Nordic Neurotrauma Conference
November 27- 29 2023, Lund, Sweden

19.00-23.00	Banquet dinner at AF-Borgen
Wednesday November 29th 2023	
08.30-09.00	Poster session
09.00-10.00	Spine Basic principles of Spinal cord injury: MAP,steroids, timing of surgery, <i>Niklas Marklund</i> Update on experimental surgical treatment for SCI, <i>Marios Papadopoulos</i> Funcional surgery on patients with SCI: Baclofen pumps, epidural and motorcortex stimulation, <i>Mark Zuchner</i>
10.00-10.10	Abstract presentation Timing of surgery for cervical spinal cord injury: Room for improvement?
10.10-10.30	Panel discussion: How can treatment be further optimized?, <i>Tor Brommeland</i>
10.30-11.00	Coffee, posters & exhibition
11.00-12.10	Neurointensive Care Monitoring in TBI (past, present, future), <i>David Nelson</i> Autoregulation in the Neuro-ICU management, <i>Marcel Ariès</i> Transfusion in TBI, <i>Heidi Vanhala</i> The effect of nursing interventions on intracranial pressure, <i>Lena Nyholm</i>
12.10-12.20	Abstract presentation Antisecretory factor (Salovum) Reduces Mortality in Severe TBI
12.20-12.35	Case discussion
12.35-13.30	Light lunch, posters & exhibition
13.30-14.40	Outcome and Rehabilitation Multimodal prediction of outcome after TBI, <i>Andras Buki</i> Guidelines for management of rehabilitation in MTBI, <i>Catharina Nygren Deboussard</i> Adaptation to society after TBI, <i>Olli Tenovuo</i> Prediction of outcome after spinal cord injury, <i>Mona Ström</i>
14.40-14.50	Abstract presentation School performance following traumatic brain injury – a nationwide register-based cohort study
14.50-15.00	Case discussion
15.00-15.15	Best Abstract Award
15.15-16.00	Farewell lecture Future multidisciplinary trends in the treatment of spinal injuries, <i>Marios Papadopoulos</i>
16.00-16.15	Farewell
