

Sudden Cardiac Death - 20 years of Cardiogenetics

Preliminary Program
Skånes Universitetssjukhus Lund
27 november 2025

09.30-09.55	Registration & Coffee outside Aulan F2
09.45-10.00	Introduction <i>Pyotr Platonov & Hans Ehrencrona (Lund)</i>
10.00-10.30	Sudden Cardiac Death: Who? When? Why? <i>Bill McKenna(London)</i>
10.30-11.00	Molecular autopsy - when to do and not to do <i>Peter van Tintelen (Utrecht)</i>
11.00-11.30	<i>Coffee</i>
11.30-12.00	Non-dilated left Ventricular Cardiomyopathy - what is it? <i>Elena Arbelo (Barcelona)</i>
12.00-12.30	Hypertrophic cardiomyopathy in 2025 <i>Henning Bundgaard (Copenhagen)</i>
12.30-13.30	<i>Lunch</i>
13.30-14.00	Arrhythmogenic cardiomyopathy: Gene-specific risk stratification <i>Anneline te Riele (Utrecht)</i>
14.00-14.30	Familia ST-depression syndrome: It is not about ischemia! <i>Alex Christensen (Copenhagen)</i>
14.30-14.50	<i>Coffee</i>
14.50-15.20	SCN5A syndroms: Brugada syndrome and more <i>Georgia Sarquella-Brugada (Barcelona)</i>
15.20-15.50	Cardiogenetic research in Sweden: Update 2025 <i>Pyotr Platonov (Lund)</i>
15.50-16.20	From monogenic diseases to polygenic risk scores in precision prevention of cardiovascular disease <i>Olle Melander (Malmö)</i>
16.20-16.30	Closing remarks <i>Pyotr Platonov & Hans Ehrencrona (Lund)</i>
