

Sudden Cardiac Death - 20 years of Cardiogenetics

Program
Skånes Universitetssjukhus Lund
27 november 2025

09.30-10.00	Registration & Coffee outside Aulan F2
10.00-10.20	Introduction: 20 years of cardiogenetics in Lund Pyotr Platonov & Hans Ehrencrona (Lund)
Session 1	Chairs: Pyotr Platonov (Cardiologist, Lund) & Hans Ehrencrona (Clinical Geneticist, Lund)
10.20-11.00	Molecular autopsy - when to do and not to do Peter van Tintelen (Utrecht)
11.00-11.30	Coffee
Session 2	Chairs: Maria Hellberg (Clinical Geneticist, Lund) & Oscar Braun (Cardiologist, Lund)
11.30-12.00	Non-dilated left Ventricular Cardiomyopathy - what is it? Elena Arbelo (Barcelona)
12.00-12.30	ICD use in patients with inherited cardiac disorders - does plasma potassium levels has a role? Data from POTCAST trial. Henning Bundgaard (Copenhagen)
12.30-13.30	Lunch
Session 3	Chairs: Erik Ljungström (Cardiologist, Lund) & Nina Larsson (Clinical Geneticist, Lund)
13.30-14.00	Arrhythmogenic cardiomyopathy: Gene-specific risk stratification Anneline te Riele (Utrecht)
14.00-14.30	Familia ST-depression syndrome: It is not about ischemia! Alex Christensen (Copenhagen)
14.30-14.50	Coffee
Session 4	Chairs: Catarina Lundin (Clinical Geneticist, Lund) & Uzma Chaudhry (Cardiologist, Lund)
14.50-15.20	SCN5A syndroms: Brugada syndrome and more Georgia Sarquella-Brugada (Barcelona)
15.20-15.50	What does it mean to be a carrier of pathogenic variant? Patient perspective Lisa Kirsebom (Lund)
15.50-16.20	From monogenic diseases to polygenic risk scores in precision prevention of cardiovascular disease Olle Melander (Malmö)
16.20-16.30	Closing remarks Pyotr Platonov & Hans Ehrencrona (Lund)
